Re: *In re Purdue Pharma L.P., et al*, Case No. 19-23649 (RDD)

Dear Judge Drain:

I am writing in support of Massachusetts Attorney General Maura Healey and the 24 other attorneys general across the country who are opposing Purdue Pharma's proposed settlement and request for a nationwide injunction.

I am writing to you as a citizen who, like many others, have seen firsthand the devastation wrought by Purdue Pharma. The Sackler family has destroyed average families for decades through their pursuit of wealth with no regard for the consequences faced by the average population. Purdue made and makes Oxycontin and pushed doctors to hand out more prescriptions fully knowing how addictive their substance was. Their greed has reached to corners of our society previously untouched by addiction. The Sackler family needs to be held accountable for the destruction they have caused and the lives they have ruined.

I support our Attorney General Maura Healey in her move for no settlement with Purdue Pharma. I am asking you to help us hold Purdue accountable for their actions. No company should get away with profiting off of lives lost. Help us put people over profit and give meaning to those whose lives cannot be reclaimed. Not only should we **not** settle, we should go after Purdue and the Sacklers to pay back the billions they have pocketed from the sales of Oxycontin! Thank you for taking this issue to the heart of the law and standing up for those you serve.

Edwin Moreno I was Affected
by Oxycontin

Re: *In re Purdue Pharma L.P., et al*, Case No. 19-23649 (RDD)

Dear Judge Drain:

I am writing in support of Massachusetts Attorney General Maura Healey and the 24 other attorneys general across the country who are opposing Purdue Pharma's proposed settlement and request for a nationwide injunction.

I am writing to you as a citizen who, like many others, have seen firsthand the devastation wrought by Purdue Pharma. The Sackler family has destroyed average families for decades through their pursuit of wealth with no regard for the consequences faced by the average population. Purdue made and makes Oxycontin and pushed doctors to hand out more prescriptions fully knowing how addictive their substance was. Their greed has reached to corners of our society previously untouched by addiction. The Sackler family needs to be held accountable for the destruction they have caused and the lives they have ruined.

I support our Attorney General Maura Healey in her move for no settlement with Purdue Pharma. I am asking you to help us hold Purdue accountable for their actions. No company should get away with profiting off of lives lost. Help us put people over profit and give meaning to those whose lives cannot be reclaimed. Not only should we **not** settle, we should go after Purdue and the Sacklers to pay back the billions they have pocketed from the sales of Oxycontin! Thank you for taking this issue to the heart of the law and standing up for those you serve.

Oxycontin Ruined my life, my sister's life, my parents lives and also a great deal of my friends lives. Unfortunately, most of them are dead and not able to fill this letter out on their own.

Thank you for making this a priority as heroin and now fentanyl addiction have taken off since ~~the~~ oxycontin hit the market. Too many families have been destroyed by this potent little pill.

Thank you for taking this issue to the heart of the law and standing up for those you serve.

My family has been severely affected by the prescribing of Oxycontin to my grandson. He has overdosed two times so far and if not for the cameras in the MBTA elevators, he might not be here now. His addiction to this drug kept him isolated from our family and his friends as well. He is currently in treatment, but has relapsed countless times in his 25yrs. At times he has been missing which continues to affect our whole family not knowing where he is, or if he has overdosed again. To me, rewarding "bad" or at least "questionable" behavior should not even be an option.

Thank you,
Jeanne Isles

Re: *In re Purdue Pharma L.P., et al*, Case No. 19-23649 (JDD)

Dear Judge Drain:

I am writing in support of Massachusetts Attorney General Maura Healey and the 24 other attorneys general across the country who are opposing Purdue Pharma's proposed settlement and request for a nationwide injunction.

I am writing to you as a citizen who, like many others, have seen firsthand the devastation wrought by Purdue Pharma. The Sackler family has destroyed average families for decades through their pursuit of wealth with no regard for the consequences faced by the average population. Purdue made and makes Oxycontin and pushed doctors to hand out more prescriptions fully knowing how addictive their substance was. Their greed has reached to corners of our society previously untouched by addiction. The Sackler family needs to be held accountable for the destruction they have caused and the lives they have ruined.

I support our Attorney General Maura Healey in her move for no settlement with Purdue Pharma. I am asking you to help us hold Purdue accountable for their actions. No company should get away with profiting off of lives lost. Help us put people over profit and give meaning to those whose lives cannot be reclaimed. Not only should we **not** settle, we should go after Purdue and the Sacklers to pay back the billions they have pocketed from the sales of Oxycontin! Thank you for taking this issue to the heart of the law and standing up for those you serve.

I have personal experience using Oxycontin back from 2003-2007. My addiction grew tremendously after my introduction to Oxycontin 80's and I ended up losing everything in my life and graduated to heroin.

Thank you for your time -
Austin Gillespie

I have alot of people that were affected
By Oxycontin. and more then Half are Died
Now. The Rest are still suffering. I was one
that is still suffering. And my mother is still
suffering from this Disease which is getting out of
Jail in 9 days.
